

Downtown BIZ / DSN (Downtown Security Network)

Tactical Intelligence Officer's Mission

To assist the Downtown Biz / DSN with incorporating their Camera Mapping System and the Winnipeg Police Service (Police Net):

Method:

- Develop DSN into a tool that can be utilized by the WPS in order to assist Investigations with high quality suspect imagery; Potentially Solving / Preventing Crime.
- Make DSN accessible to WPS while building credibility in the DSN program with current and potential members / businesses within the Downtown Area.
- Identify the Cameras; exact location, number(s), direction, specific view and business contacts (primary / secondary).
- Identify the Timeframe in which the video imagery is stored / maintained.
- Make the Video Surveillance / Digital Images available to the WPS with a clear, concise process on how to directly obtain the imagery information.

Potential:

- At any given time of the day / evening / night, every citizen within DSN would be under continuous video surveillance.

End Goal:

- To establish a partnership between DSN, Winnipeg's Downtown Business Sector and the Winnipeg Police Service in order to provide a high level of public safety in our vibrant Downtown Area.
